## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1,12,13,18 & 19 are rejected under 35 U.S.C. 102(b) as being anticipated by US Patent No. 6,412,287. Hughes et al, discloses heated/cooled console storage unit for a vehicle and comprising: a controller (84), a thermoelectric module (16), a power supply (82), storage unit (10), a transmission selector (110), HVAC controls (114) for controlling venting, a thermostat mechanism with controller monitors and further comprising heat sinks for allowing exchange.

### ***Allowable Subject Matter***

**Claim 20 allowed is allowed over the prior art of record.**

Claims 2-11,14-16 & 17 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
